Philadelphia, PA (June 5, 2020) –Members of the Air Quality Practice Group of Manko, Gold, Katcher & Fox, LLP, the environmental, energy and land use law firm based in the Philadelphia region, contribute a chapter covering air regulation for the recently released *New Jersey Environmental Law Handbook*. MGKF co-authors include partners Carol F. McCabe, Katherine L. Vaccaro and Michael Dillon.

The *New Jersey Environmental Law Handbook* is a collaboration of New Jersey's most experienced environmental law practitioners to provide essential facts and insights that can be used in one resource. The Handbook breaks down some of the State's complex environmental laws and regulations and makes them more understandable, useable and practical for readers. This is the first update to the Handbook since 2014.

The MGKF Air Quality Practice Group counsels clients on all aspects of the application of air regulatory requirements to clients' operations, including permitting, compliance counseling, enforcement issues, auditing, reporting, and regulatory development. The MGKF co-authors were selected as contributors to the *New Jersey*

Environmental Law Handbook based on their extensive, air quality related experience. The Air Chapter of the handbook addresses a wide range of air quality issues in New Jersey and the regulatory framework related to those issues, including National Ambient Air Quality Standards, air quality permitting, administrative enforcement actions, and greenhouse gas regulation.

MGKF concentrates its practice in environmental, energy, litigation, safety and land use law. It represents clients ranging from Fortune 100 corporations to small, privately held enterprises, both in the Mid-Atlantic region and on a national basis. MGKF is also honored to be the top-rated law firm, since 2011, in the Top Workplaces surveys by the Philadelphia Inquirer, Daily News and Philly.com.
